**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 21 January 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

The reply filed on 1/21/09 has been received. The 112 rejections have been withdrawn.

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 15-17, 19-21, 23, and 24 rejected under 35 U.S.C. 102(b) as being anticipated by Benoit et al. (US 5,095,659).** Benoit et al. disclose an assembly support (50) designed for fastening to a body shell of a vehicle door of a passenger vehicle equipped with a locking system comprising a lock unit (57) of the locking system fastened to the assembly support, an outside actuating unit (53) of the locking system for arrangement on an innerside of an outer body shell skin and coupled to the lock unit via an operative connection (54) and an adaptor (54) fastening the outside actuating unit and the lock unit together, wherein the assembly support, when fastened to the body shell, closes an installation opening left open in the body shell (Fig. 1); **[claim 16]** wherein the outside actuating unit is designed in such a manner that, with the assembly support fastened to the body shell, an outside door handle of the locking system can be fastened from an outer side of the vehicle door through an outer skin of the body shell to the outside actuating unit (column 8, last line- Column 9, line 7); **[claims 17 and 21]** wherein the lock unit is fastened to the assembly support by way of another adaptor (65,

Fig. 9); **[claims 20 and 24]** wherein functionality of the lock unit, the outside actuating unit and the operative connection is tested and adjusted when the assembly support is finished and has not yet been fitted into the vehicle door (Column 3, lines 48- 65).

Regarding claims 19 and 23, Benoit et al. (US 5,095,65) discloses the repositioning of at least one of the lock unit and the outside actuating unit relative to the assembly support is permitted during assembly of the vehicle door (Column 8, lines 9- 20). Also, these claims are intended use and are given little to no patentable weight.

### ***Response to Arguments***

3. Applicant's arguments filed 1/21/09 have been fully considered but they are not persuasive. Applicant argues that Benoit et al. does not disclose an adaptor fastening the outside actuating unit and the lock unit together. As Benoit et al. disclose, the element (54) acts as both the operative connection (Bowden cable) and as an adaptor between the outside actuator (53, Fig. 4) and the lock unit (57, Fig. 4).

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
